Your before & after checklist.

What to know before your procedure—and during recovery.

Swipe to prepare →

LaserVision

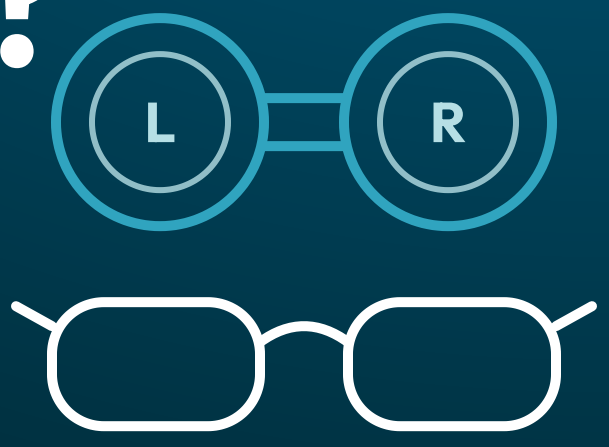

Preparation starts before procedure day.

- Complete the requested eye tests
- Consult your treating ophthalmologist
- Share your eye history, medical conditions and medications
- Ask every question you have

Your ophthalmologist determines whether laser correction is suitable for you and which procedure is appropriate.

LaserVision

Contact lenses? Follow your instructions.

Contact lenses can temporarily affect the shape of your cornea and the accuracy of your measurements.

- Switch to glasses when instructed
- Follow the exact timeline provided by your eye-care team
- Do not choose the stopping period yourself

Timing varies according to the type of contact lens and procedure.

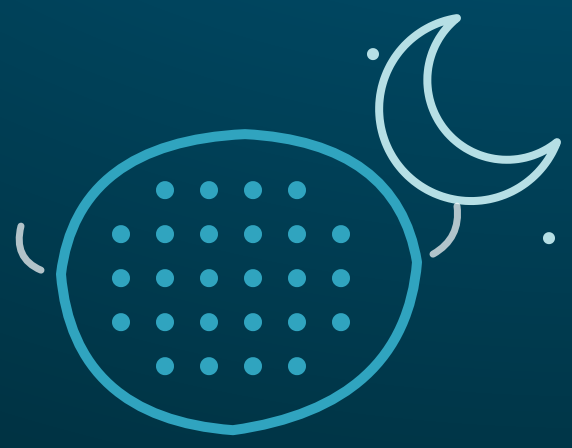

Keep the day simple.

- Arrive with **clean eyes and face**
- Avoid eye makeup, creams and perfume if instructed
- Follow any **medication instructions** provided
- Arrange for **someone to take you home**
- Wear comfortable clothing

Do not plan to drive yourself home.

Rest. Protect. Don’t rub.

- Go home and rest
- Use the prescribed drops exactly as directed
- Do not touch or rub your eyes
- Wear the protective shield if provided
- Expect temporary blur or irritation

Contact your treating ophthalmologist if symptoms become severe or worsen.

LaserVision

Follow your recovery plan.

- Attend every follow-up appointment
- Continue your prescribed drops
- Wear sunglasses outdoors
- Wait for clearance before driving
- Keep water, dust and products away from your eyes

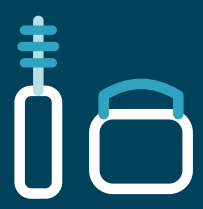

Recovery differs between **LASIK**, **PRK**, **Femto** and other procedures.

LaserVision

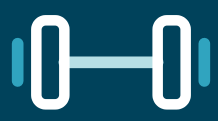

Before returning to...

Swimming & water

Eye makeup & creams

Exercise & contact sports

Contact lenses

Ask your **treating ophthalmologist** when it is safe to resume each activity. Timelines vary by procedure and healing.

LaserVision

Your instructions are personal to you.

Follow the plan given by your **treating ophthalmologist**—not someone else's recovery experience.

Book your tests or consultation.
